

Happy New Year

The Fort St John Public Library Association Staff and Board wishes everyone the very best for the New Year. We re-opened in January after the holiday closure and were very busy for the first few weeks. The demand for books, resources, computers and staff support was a good indication that our services and programs were missed. Morgan has been continuing with the Take N Make projects and is "Full Steam Ahead" with engaging children and families with the Science and Technology stream of projects sponsored by SHELL.

On December 1, 2020 I gave my resignation letter to the Board of Trustees as the Director of Library Services. This will be my last Director's Report and it is bittersweet as I have always enjoyed reflecting on the month. It can be difficult to narrow down what to choose to highlight as we continue to adapt and change and hear wonderful stories about our impact from our patrons!

I would like to thank the hiring committee back in September 2018 for giving me the opportunity to serve my community. I'd like to thank the staff at the library for their unwavering patron service and respect for all members of our large and diverse community. Thank you to the Board of Trustees for volunteering your time to support me and the library.

I wish everyone the very best in 2021 and I encourage you to read (or re-read) the Director's Reports online at www.fsjpl.ca for a chronicle of the FSJPL from the past to present.

Karlene
