

## Ramping up to SRC

Morgan, our Children's Services and Program Coordinator gets a **triple axel high five with a glitter bomb** this week for successfully securing a \$3,000 donation from Northern Metallic for our SRC program!

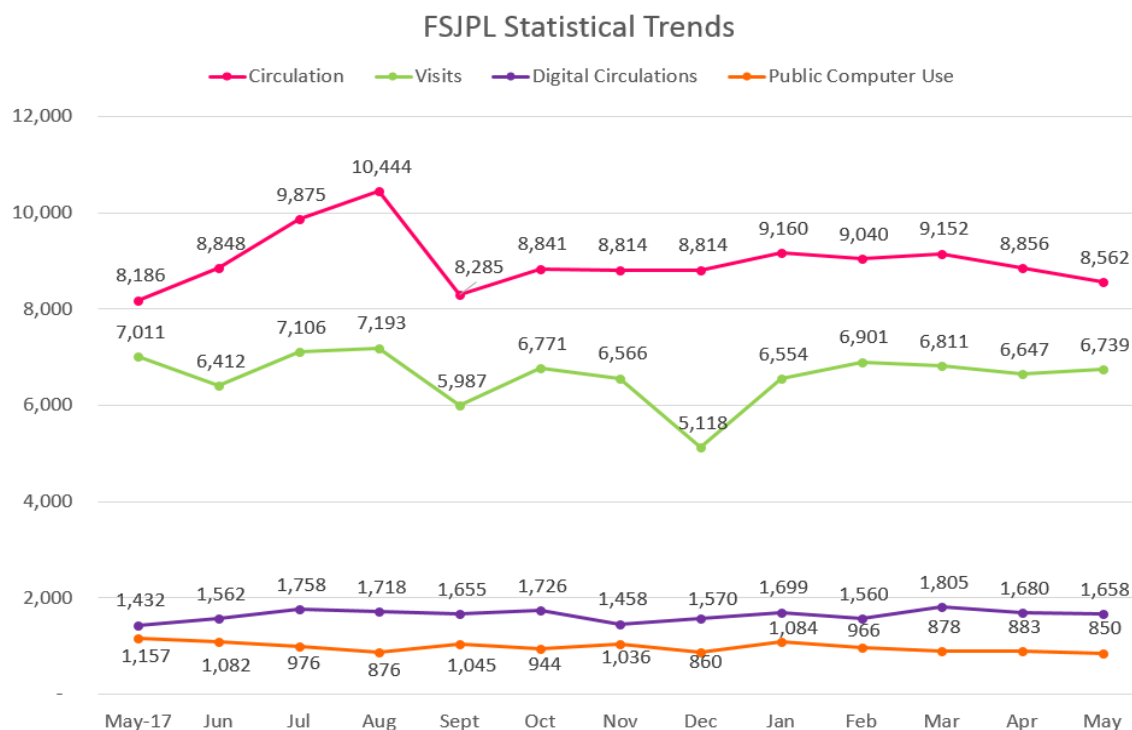

After developing a new and more efficient system for kids who log their reading hours during the summer, Morgan had set her goals on finding a local sponsor to support the purchase of some big-ticket prizes that every participant has a chance to win. Each week, children participating in the program will receive ticket stubs for each hour they read and record in their log. Children will then enter their tickets into a corresponding prize's draw box. This year's SRC theme is Motion Commotion, and most prizes follow that theme; bicycles, longboards, family passes to local recreational activities, and so much more. As always, there will also be smaller incentive prizes each week for every participant.

This brings our total SRC support to date up to: \$13,500. Northern Metallic joins an all-star support team of Pembina, ConocoPhillips, and NPSCU.

Our Summer Reading Club (SRC) students began work June 4<sup>th</sup> and have been busy visiting local schools in the area to promote our summer activities and reading incentives. Registration for SRC opens Saturday, June 23<sup>rd</sup> and will continue throughout the summer.
